1. Navigating through the website (Browsing)

Navigating through the website is an easy enough process. The layout of the website is very basic allowing easy use of the website. On the top of the page you will see the navigation bar which has all the different pages on the website including home, products, about us, contact us, login and sign up.

Our home page is just a basic layout showing our latest releases. The product page contains our products catalogue showing all the products available on the site. It is from where you are allowed to purchase products. Next is the about us page which just holds information about our online store. The contact us page will allow you to send us emails for whatever reason necessary that could be for reviews or even queries. If you have an account with us then you will be able to login from the login page that's right next to the contact us on the navigation bar but if you don't already of an account with us then you may sign up with the tab beside it.

New releases

Toshiba

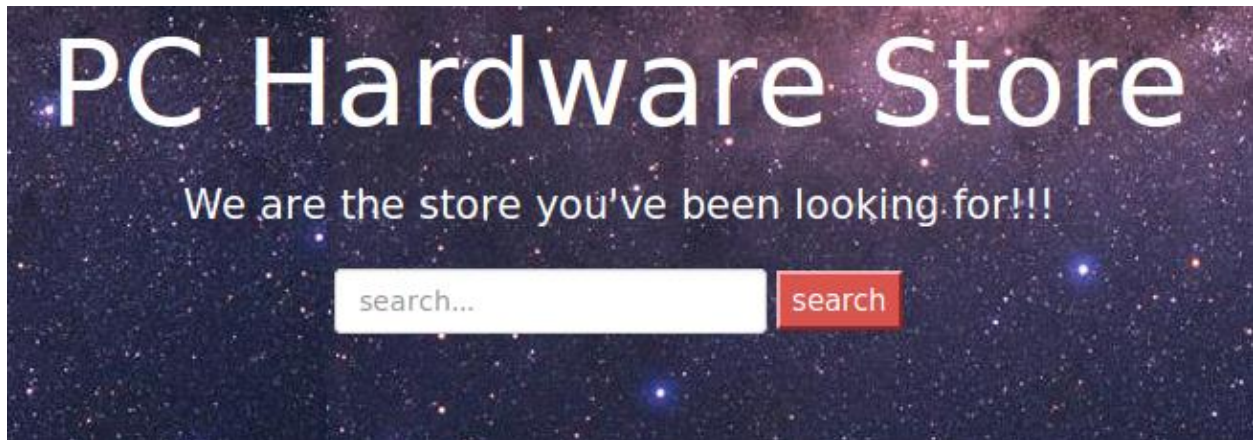

500GB storage

Sandisk Ultra Fit

32GB Password protected storage

If there is any product you would quickly like to search you could use the search bar to find that product by simply typing in the product name.

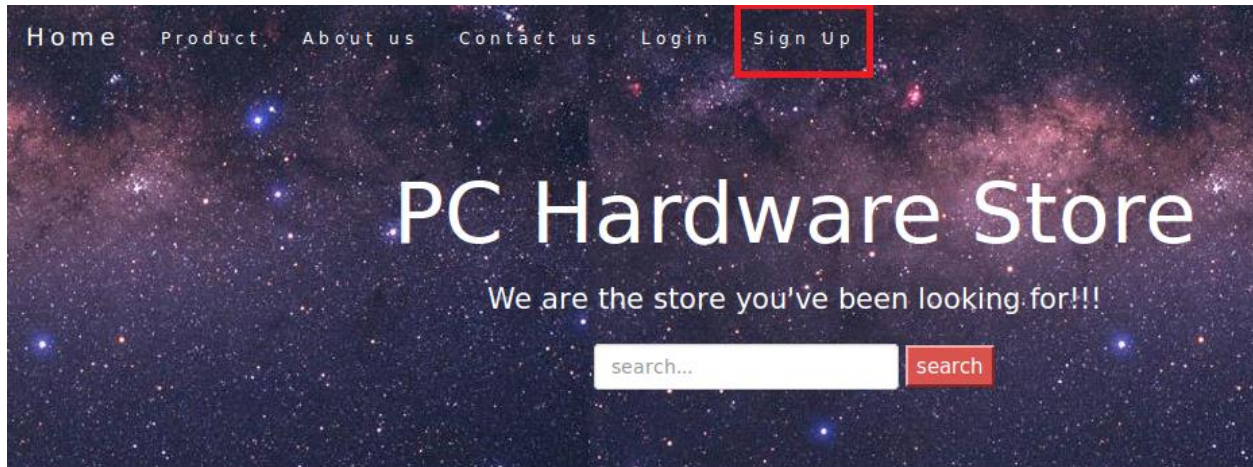

You may also use the arrow at the bottom of the page to go back to our home page.

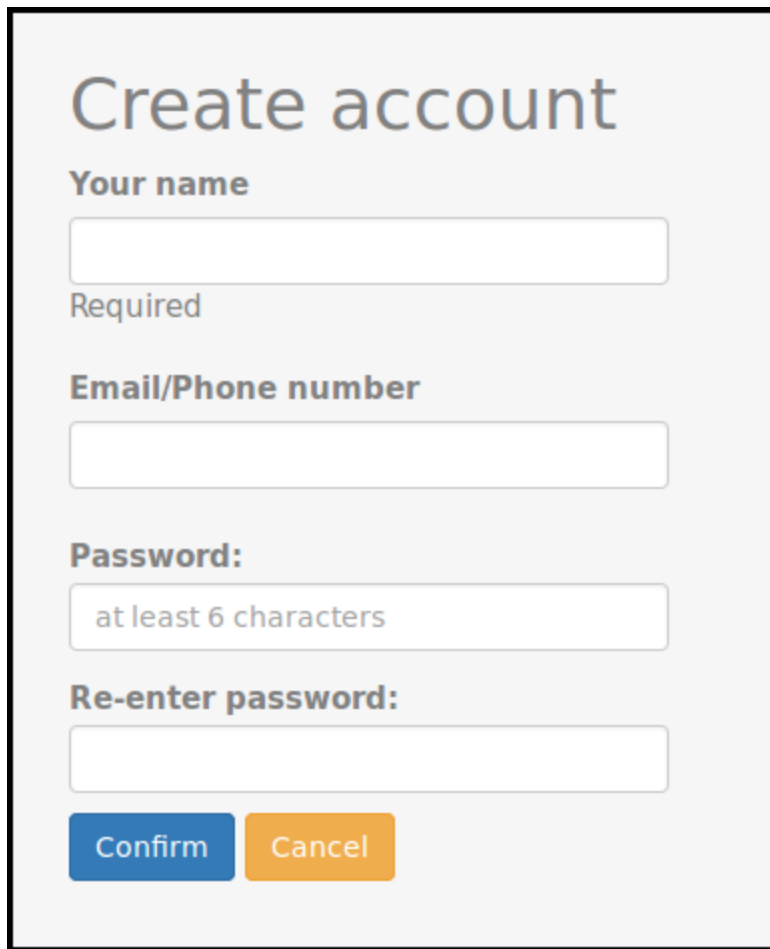

2. Signing Up

To Sign up, you will have to provide us with some information about you and how you would like us to authenticate you when you log on to our website to purchase a product. Our sign up page is found on the top along with the other tabs on the page

and it consists of a simple form which is asking you to put in your full name, which is your first name and surname, it is asking you to put in your email address which you will be using to log into your account and receive emails about confirmations and receipts for all the purchases you will be making on the website. Please make sure it is an email address that you are active on to make sure you see any emails we send you. We will not be sending any junk mail. The next thing it asks for is a password you would like to assign to authenticate your profile for us to make sure it's you, do not give this password to anyone else and make sure it is something you won't forget. It needs to be at least 6 characters long. Just click ok when you are done and then it will ask you to sign in again with the account you have just made, which will be to make sure it is your account.

3. Logging In

To log into our website you will see a sign in tab next to the sign up tab.

If you have just created an account with us, then you will be redirected to our sign page. This will allow you to sign into an account that you have previously made with us. You will need to put in the email address you used to sign up and the password you provided us with for you to let us authenticate you.

A screenshot of a web form titled "Sign in". The form is set against a light gray background with a black border. It contains two input fields: "E-mail address or phone number" and "Password". Below the password field is a blue "Log In" button. Underneath the button is a link that says "-----New to PC Hardware?-----". At the bottom of the form is a gray "Sign Up" button.

4. Purchasing

When purchasing a product, you will have to add the product to your shopping cart. You will need to have an account with us in order to purchase products, if you do not already have an account you will need to sign up and if you have an account then you will just need to sign in. Add all the products you wish to purchase to your shopping cart by pressing the button on the right hand side of your screen with the picture of a shopping cart. Once it is added, it will automatically take you to the shopping cart. You may add more products if you wish by just going back into our products page and by adding in the desired ones. You may use the categories to refine your search and make it easier to find what you are looking for or easily use the search. In order to search for a product on our website, you must click into the text box under our website name and type in the product you wish to find by brand name. That will take you to a new page and show you your search results.

	Price	Buy
/I, Response time: 5 ms	€ 129.99	
VGA & DVI, Response time: 5 ms	€ 169.99	

From the shopping cart menu, you will be able to increase and decrease the products quantity you would like to purchase, or even delete products you don't wish to buy. You will be able to do this by clicking the addition sign to increase quantity and the minus sign to decrease the quantity. When you are ready to continue just click the checkout button on the screen and this will take you to the payment method screen.

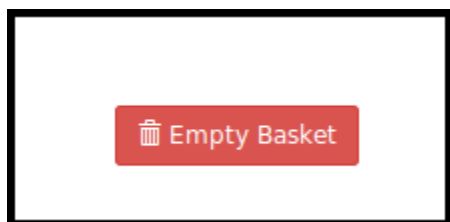

Quantity	reduce	add more..

Basket Total: € 129.99

Checkout

Or if you would like to empty the basket just click the button "Empty basket".

When you click the add payment it will ask you to put in your card details, including your Card number, your card type, your full name which is on your card, your address, and then phone number which we can contact when delivered. After you put these in you may continue by clicking confirm.

The image shows a payment form interface. At the top, there are four credit card logos: DISCOVER, MasterCard, VISA, and AMERICAN EXPRESS. Below the logos, the word "Payment" is displayed in a large, bold font. Underneath, the label "Name on card:" is followed by a text input field. Below the input field, the word "Required" is written. The next label is "Credit card Number:", followed by another text input field. Below this, the label "Card Type" is followed by a dropdown menu showing "Visa". The final label is "Expiration date:", followed by two dropdown menus, one for "Month" and one for "Year".

Once you are past your payment method by clicking ok you will be shown your order details again but your order will be placed with a confirmation popping up on screen letting you know that the order has been placed.

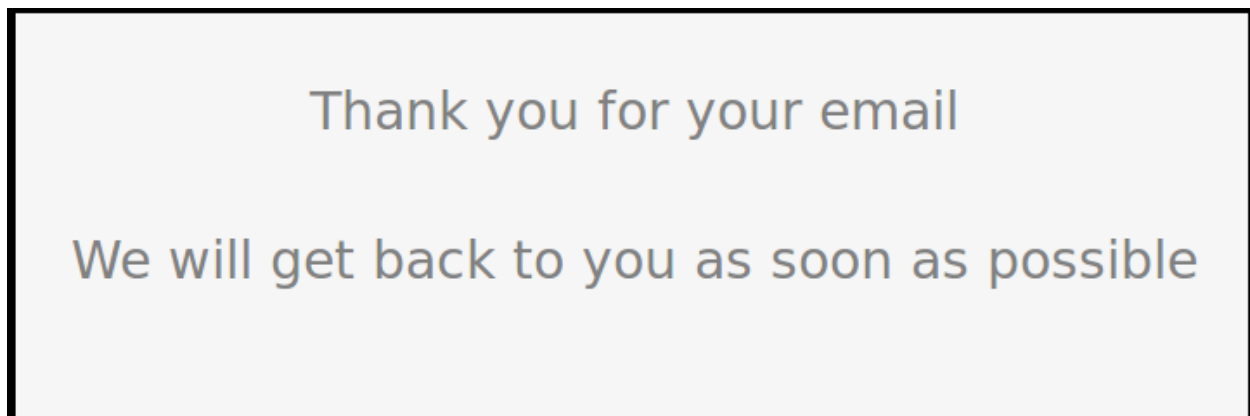

5. Contact us

From the contact us page you will be able contact us for any issues you are having what so ever, which includes queries and feedback. If there is any confusion on the website or errors even which you think are right you may email us letting us know. When sending an email you will just have to give us your email address, name, reason you are emailing us and the comment you have into the spaces provided and then click send.

A screenshot of a contact form with a light gray background and a black border. The form contains four input fields: "Email", "Name", "Subject", and "Comment". The "Email" and "Name" fields are at the top, "Subject" is below "Email", and "Comment" is a larger text area below "Subject". A small orange "send" button is located at the bottom right of the form.

If it was successful you should be redirected to a confirmation screen.

ADMIN

1. Update Products

As an Admin, you will be able to update product information, such as the product name, description, stock level and prices depending on when we have offers and when we change in price for any reason. They can be updated for when later on it is seen that there is a mistake on the description. To update a product you must click the pen pictured button on the right side of the screen of the desired product you wish to buy.

Description	Stock	Price		
1920 x 1080p Full HD, Inputs: VGA & DVI, Response time: 5 ms	3	€ 129.99		
1920 x 1080p Full HD, Inputs: HDMI & VGA & DVI. Response time: 5 ms	20	€ 169.99		

This will open up a new screen where it will show you something similar to a form, you will be able to edit all the information you wish to from there. You will be given the options to change the name, description, stock level and price.

3. Delete products

As an Admin you will be able to delete products from the website, which will get rid of any unwanted product from our list of products in case they are obsolete or even just out of stock. When deleting a product, you must click the button on the right with the picture of the trash can. When you click that button a confirmation message will come to make sure you are sure that you want to delete that product. Once you click ok it will delete the product from the website and the database.
